

Chapter 13 – Urban Patterns: Issue 02, The Distribution of Peoples within an Urban Area

1. Models of Urban Structure

- a. Apply each of the three models to the city of Columbia. Discuss the advantages/disadvantages of each model when applied to the city. Use the link below for a link to a map of Columbia.

<http://www.mapquest.com/maps/map.adp?country=us&countrycode=250&city=columbia&state=sc&submit.x=54&submit.y=18>

2. Discuss the social, economic, and political factors that have contributed to the differences in the development of European and American cities.

3. Distinguish between a megacity and megalopolis. Provide specific examples.

4. Analyze positive and negative impacts of urban gentrification
