

## Issue 01: Where are Ethnicities Distributed?

1. Identify the distinctive clusters for the following population groups by region and state:
  - a. African American:
  
  
  
  
  
  
  
  
  
  
  - b. Hispanic, Latino/Latina:
  
  
  
  
  
  
  
  
  
  
  - c. Asian American:
  
  
  
  
  
  
  
  
  
  
  - d. American Indian/Alaska Native:
  
2. Define the characteristics of the major migration flows that shaped the current distribution of African Americans by completing the table:

|                          | Time Frame | Area of Origin | Push/Pull Factors | Destination |
|--------------------------|------------|----------------|-------------------|-------------|
| Migration from Africa    |            |                |                   |             |
| Immigration to the North |            |                |                   |             |
| Expansion of ghettos     |            |                |                   |             |
